2026-27 BASKETBALL LOCK CLUB PROSPECTUS

EXPERIENCE. PREPARATION. DISCIPLINE.

There is only ONE ATS Basketball Lock Club. Established in 1992, our premier basketball advisory program brings together selective wagering, detailed handicapping and disciplined money management for the entire NBA and college season.

BUILT FOR TODAY'S BASKETBALL

New ownership in 2024 brought changes designed to strengthen our analysis and selection process. For 2026-27, ATS continues to improve its research and personnel as the game evolves.

NIL, revenue sharing and the transfer portal demand close evaluation of returning production, player roles and chemistry. In the NBA, free agency, injuries, rotations, rest and scheduling can reshape a matchup overnight.

SELECTIVE PLAYS. STRONGER PREPARATION.

Every selection should earn its place on the card. We combine power ratings, statistical analysis, personnel assessment, matchup evaluation, injury research and market analysis to identify opportunities that justify a wager.

ONE MEMBERSHIP. THE COMPLETE PROGRAM.

Receive our highest level of basketball service: NBA and college Lock Club selections, all basketball Max Bets, Games of the Month and Year, plus preseason and postseason selections. No separate purchases for individual premium basketball releases. From opening week through the NBA playoffs, your basketball program is covered.

MONEY MANAGEMENT IS CENTRAL

Knowing what to play is only part of the equation. Knowing how much to risk matters just as much. Receive unit ratings and guidance on bet sizing, daily exposure and bankroll management.

THE DISCIPLINE BEHIND EVERY SELECTION

Manage losing streaks. Keep individual wagers within a planned share of your bankroll.

Keep bet sizing consistent. Use defined units to avoid oversized wagers and chasing losses.

Control daily exposure. Consider the total amount at risk across crowded NBA and college schedules.

Reduce emotional decisions. Follow a structured plan through winning and losing stretches.

Maintain perspective. Evaluate the season as a whole. Winning percentage alone does not account for odds paid or wager size.

DEDICATED ADVISOR SUPPORT

An advisor can explain the program, discuss strategy and help establish a unit amount appropriate for your available bankroll. Apply the program with a clear plan and consistent execution.

Past performance does not guarantee future results. Betting involves risk; money management does not eliminate it.

BASKETBALL LOCK CLUB
PROSPECTUS

THE RESEARCH BEHIND THE RELEASE

JANUARY 31, 2026 | COLLEGE MAX BET

10 UNITS: KANSAS -3.5

FINAL: KANSAS 90, BYU 82

Allen Fieldhouse provided a powerful home setting for its 1,000th game. Kansas entered on a four-game winning streak, beating Iowa State, Baylor, Colorado and Kansas State by an average of 17.3 points.

The defensive matchup stood out: Kansas was allowing 37.9% shooting overall and 29.1% from three, with 6.2 blocks per game. Flory Bidunga's rim protection gave the Jayhawks a way to challenge BYU's drives.

Darryn Peterson's expected return strengthened the case after Kansas beat Kansas State 86-62 without him. Our assessment favored Kansas' size, defensive pressure and home-court edge at the available -3.5.

Kansas led 53-33 at halftime and covered in a 90-82 win. AJ Dybantsa scored 17 points, below his entering 23.6 average. Peterson scored 18 but was limited by calf issues in the second half.

TWO SAMPLE WEEKS FROM THE 2025-26 SEASON
